

Electric Fires

Savena **ecolite** Electric Fire

Designed with energy efficiency and cost-savings in mind, Savena forms part of Valor's new Ecolite range of contemporary inset electric fires. Named after the fires' integral energy efficient LED lights that serve to keep running costs low, Savena boasts 100% efficiency and a concealed 2.0kW fan heater that provides a choice of two heat settings. Not only that, for full visual effect, the flame can be enjoyed independently of the heat. Installation is a breeze thanks to a one piece moulded fuelbed and kettle connection, and a top side switch control means operation of the fire couldn't be easier. Available in black, brass and contemporary brushed chrome, this model offers something for everyone.

Features:

Heat Type: Fan Convection

Max Heat Output: 2.0 kW

Nett Efficiency Rating: 100%

LED Lights: Yes

Control Type: Top Side Control

Thermostat: Yes

Dimensions: (HxWxD) 615 x 463 x 87mm
