

## Bizet

WALL MOUNTED ELECTRIC FIRE

BZT20E

The Bizet is an electric wall-mounted fire with a reversible trim offering either a silver finish with gloss white or black outer frame. Featuring the unique Optiflame technology, and a log effect fuel bed, this fire can be either wall-mounted or recessed into the wall when installed. Providing up to 2kW heat output with 2 heat settings, the heater blows warm air into the room, not up against the wall, when in use. The flame effect can be used independently of the heat settings for that relaxing warmth glow throughout the year.

Featuring thermostatic controls which mean you can set your fire to produce heat when the room drops to a certain temperature, helping to maintain comfort in your home. The Dimplex Bizet offers a simple solution for anyone looking for a reasonably priced, contemporary fire that boasts simple installation whilst adding instant warmth and ambience to any room.
