

# Nobø Connect SHB-IZ Smart HUB

Nobø Connect is a new generation of heating management products which can easily be connected to a compatible smart control system. This makes it possible to link the heating control together with the other units in the installation. With this system you can cut power peaks (smooth out power peaks) and limit energy consumption without compromising comfort.

Smart Hub SHB-IZ is the device that connects heaters with control unit SPC-IZ and floor heating with thermostat SWT-IZ together with the Futurehome app. With the app, you can easily set weekly programs and ensure that the panel heaters and underfloor heating works together with the other units in the installation, which is important to be able to cut power peaks and limit power consumption.

# Smart HUB SHB-IZ

Temperature setting	0-35°C
IP Rating	IP22
Insulation class	II
Product dimensions (HxWxD)	118 x 118 x 32 mm
Package dimension (HxWxD)	150 x 150 x 120 mm
Weight packed	600g
Color	White
Communication	Z-wave, Zigbee, Bluetooth 5.2
Voltage	5V DC
OS	Cube OS
CPU	Quad-core ARM Cortex-A53
Memory	2GB Ram
Storage	8GB eMMC
Warranty	5 years

App

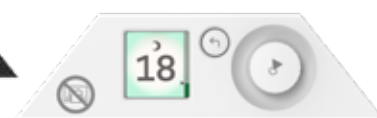

Hub
