

Simply Silent™ DX100BS

4" / 100mm axial bathroom fan - standard

The Simply Silent DX100BS intermittent extract fan is designed for those looking for something conventional, with a modern twist. The fan controls humidity, odours and mould growth effectively in bathrooms, shower rooms, cloakrooms and toilets.

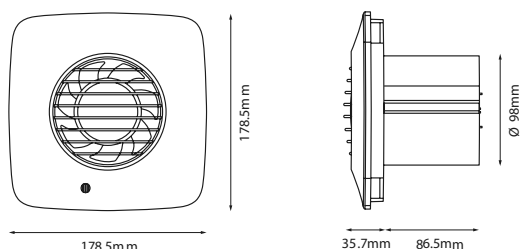

DX100BS features a traditional square grille-style fascia finished in cool white. The product has 2 speeds, selectable at install and is suitable for wall, ceiling and window fitting.

DX100BS is a standard fan. This means that the fan is activated by an external switch (for example a lighting circuit) and will stop once the external switch is turned off.
