

Simply Silent™ DX100S

4" / 100mm axial bathroom fan with wall fitting kit

The Simply Silent™ DX100S intermittent extract fan is designed for those looking for something conventional, with a modern twist. The fan controls humidity, odours and mould growth effectively in bathrooms, shower rooms, cloakrooms and toilets. DX100S features a more traditional grille-style fascia, finished in cool white with a square fascia.

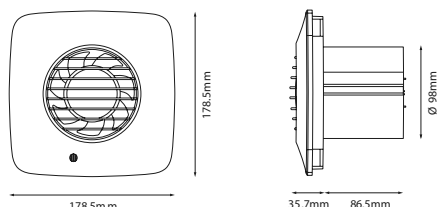

The product has two speeds, selectable at install, and features a wall-fitting kit. The product is suitable for wall, ceiling and window fitting (requires Simply Silent Window Kit).

DX100S is a Standard fan. This means that the fan will stop once the external switch (for example a lighting circuit) is turned off.
