

VX100T-SP

4" / 100mm axial bathroom fan

A single speed extract fan with a short spigot, ideal for shallow wall or ceiling installations. Compact and easy to install, the fan is designed for bathrooms, shower rooms and ensuites, and includes a lubricated-for-life motor with cut-out protection.

VX100T-SP has an overrun timer which can be set at install between 90s and 30 minutes. This means that the fan continues to operate for this time once the external switch (eg. a lighting circuit) is turned off.
