Cassettes

Optimyst cassettes are unlike anything else on the market – delivering the captivating beauty of a real fire, with all the convenience and flexibility of electric. Designed for creative freedom, our cassettes allow you to design and build a showstopping centrepiece that suits your space perfectly. Whether you are working on a bespoke installation, a home renovation, or a commercial project, Optimyst cassettes are the ideal choice.

With a choice of two sizes and installation options – from one-sided to fully see-through, you can create a double-sided fireplace, or dramatic room divider. The flame effect itself is produced by an ultra-fine water mist, lit from within to create an incredibly realistic, three-dimensional flame and smoke illusion that can be enjoyed from any angle.

- **Patented Optimyst Technology** – creates ultra-realistic flames using water vapour and light, for a truly lifelike fire experience.
- **Flexible Installation Options** – ideal for media walls, see-through fireplaces, room dividers, and custom designs.
- **Realistic Log Fuel Bed** – comes complete with a hand-finished log set that enhances the natural, glowing effect.
- **Remote Control Operation** – easily adjust flame intensity and sound effects with the touch of a button.
- **Easy refill** - water tank allows for 8-10 hours of continuous operation before refilling is required
- **No Heat, No Ventilation Needed** – safe and efficient for year-round ambience in both domestic and commercial settings.

Ventilation

This Optimyst product needs free ventilation to operate correctly. The free ventilation helps keep the electronic components cool and allows the mist to rise and leave the product. For specific ventilation requirements, please refer to the installation instructions.
