

Engine 56-600

Engines

Our range of Dimplex Optimyst engines are designed to create a bespoke built-in electric fire within a wall or fire surround creating a truly unique, stunning centrepiece for your living space.

Available in two sizes for added flexibility, these models provide up to 2kW of heat with a choice of 2 heat settings, the fire also has a thermostat which switches the heat on and off to maintain required heat levels.

Featuring our patented Optimyst technology which instantly adds an inviting warming glow to the room. Optimyst uses ultrasonic technology to create the world's most realistic flame effect, with an ultra-fine water mist that mimics flame and smoke. As the mist rises through the logs, warm light is emitted which reflects against the water, creating an incredibly realistic 3D illusion of flames and smoke which is commonly mistaken for the real thing.

Patented Optimyst Technology – creates ultra-realistic flames using water vapour and light, for a truly lifelike fire experience.

2kW Heat Output – provides comforting warmth when you need it with a choice of two heat settings.

Realistic Log Fuel Bed – supplied with a high-quality log set for an authentic fire appearance.

Thermostat Control – maintains your desired room temperature by switching heat on and off automatically.

Flexible Installation – designed for built-in applications and fire surrounds.

Easy refill - water tank allows for 8-10 hours of continuous operation before refilling is required.

Experience Better Living

Optimyst flame technology.

This unique flame effect is generated by an innovative combination of water vapour and light

2kW heat output.

Offering up to 2kW of heat via a fan heater

Choice of 2 heat settings.

A choice of 1kW or 2kW heat output helping control running costs

Variable flame intensity.

Adjust the flame effect up or down

Log effect fuel bed.

Comes with a realistic log set as standard

Flexible installation.

Suitable for domestic and commercial projects

Remote control.

Controlling all functions of the engine

Manual control.

Can also be operated via the button display on the unit

Thermostat.

Maintains the desired room temperature by automatically switching on and off

7 day programmable timer.

Set fire to come on certain times of day and also days of the week

Removable brick back panel.

Choice of brick back or black smooth finish

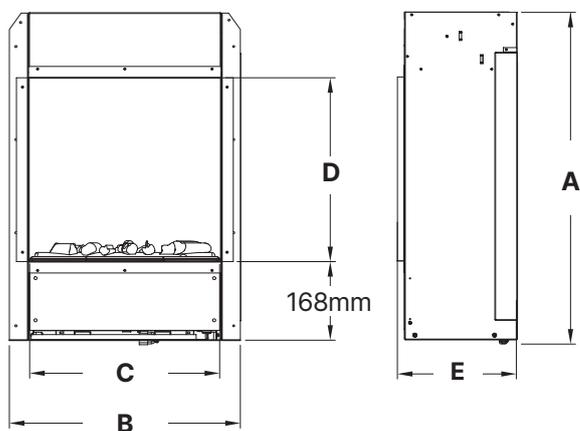

Remote Control

Dimensions

Model	A	B	C	D	E
Engine 56-600	700mm	646mm	569mm	395mm	255mm

Specifications

Technical Details	
Product Type	Engine
Flame Effect	Optimyst
Model/Range Name	Engine 56-600
Model Reference	X-066947
Model Number	ENG56-600BL-UK
Bar Code	5011139066947
Warranty	2 years
Heat Output	2kW
Wattage	180W
Voltage	230V/50Hz
Thermostat	Y
Power Consumption (flame effect)	180W
Manual Control	Y
Remote Control	Y
Batteries Included	Y - 2 x AA

Technical Details	
View Type	1-sided
Lighting Module	Halogen
Water Tank Size	1.1 Litre
Water Supply	Manual fill water bottle
Water Refill	Every 8-10 hrs (approx.)
Water Type	Filtered water only
Free Ventilation Area	Minimum 100cm ²
Fuel Bed Supplied	Logs
Sound	N
Kettle (IEC) Lead	Y
Power Cord Length	1.5m
Unpacked Weight	20kg
Finish/colour	Black
Flame Effect Only	Y
Safety Cut Out	Y
