Product Description

The **FX20VEW** and **FX20WIPX4** fan heaters are designed to deliver fast, efficient warmth exactly where you need it. Mounted on the wall, these units direct heated air downward to quickly circulate warmth throughout the room. With flexible control via the **ConfigR app**, users or installers can easily set heating durations to suit any space or schedule.

Both models offer convenient **pull cord operation**, with advanced scheduling and temperature control features available through the app—giving you smart, responsive heating at your fingertips.

Key Features

- Onboard Manual mode available after commissioning; pull cord operation
- Advanced settings via ConfigR App; User programmable temperatures with seven-day timer
- Thermal cutouts for fail-safe protection
- Same size and fixing points as previous Dimplex FX heaters
- Complies with Lot20 of ERP Directive 2025

FX20VEW

FX20WIPX4
